Add a VISCA Over IP Camera to ZowieKBD

Click (ADD) to add manually or click (SETUP) ->Device Management->CAM List->Add to add manually.

Use the up, down and top button of the joystick to move the cursor and modify the parameters.

Select the type as VISCA over IP (UDP)/VISCA over IP (TCP), and the Cam number can be specified or automatically assigned in the order in which it is added.

Enter the IP address and UDP/TCP port number of the camera to be controlled (ZowiePTZ default port TCP: 5230; UDP: 1259)

Enter the correct RTSP address and RTSP authentication for preview.
